Reasons for Allowance

1. Claims 1-10 will be allowed.
2. The following is an examiner's statement of reasons for allowance.

The prior art references most closely resembling the applications claimed invention are Sandberg et al (U.S. 5,522,045) and Rodman et al (U.S. 4,587,610).

Sandberg is directed to a general purpose inter-processor communication system and method which is implemented through a distributed shared memory network a plurality of processors comprises multiprocessors and electronic and optical devices. Sandberg also taught a multiprocessor system having a plurality of nodes, wherein node changes a logical address into a physical address wherein the physical address can be accessed by way of network when the physical address is located at distant node. However Sandberg failed to disclose, "wherein when said notice indicates said first and second virtual page numbers are not coincident, an occurrence of an error is informed to the CPU or the CPU of another node if the received network transaction is from said another node if the received network transmission is from said another node" (claims, 1,6).

Rodman is directed to the address translation system of the invention initially polls a "look a side" buffer for a translation of the virtual address to a physical address location in main memory. If a translation is found, it may be used to verify cached data and, if verified the data

may be retrieved from the cache and used immediately. However Rodman did not disclose, “wherein when said notice indicates said first and second virtual page numbers are not coincident, an occurrence of an error is informed to the CPU or the CPU of another node if the received network transaction is from said another node if the received network transmission is from said another node” (claims, 1,6).

In summary, the Examiner submits that there is no motivation to combine the aforementioned references; therefore, claims 1-10 have been deemed allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance”.
